

Let's Talk Trash

As you may recall, included with your 2009 ARHOA dues invoice was a question regarding recycling. The rate we were quoted from Industrial Disposal was not economically friendly, but even with that, our vote was still pretty impressive with 50% in favor. With only a 50% approval rating, the board can not implement a neighborhood wide recycling plan with ID.

However, those families who voted yes for recycling have an alternative that won't impact those who voted no. Starting May 1st, Industrial Disposal will be offering recycling on an individual family basis at a cost of \$4.50 per month. If you are interested in adding this recycling service, contact ID between now and May 1st or any time after.

If you received your Industrial Waste Garbage bill at the beginning of April, you may have noticed a rate increase and fuel surcharge applied. We have contacted ID and had the rate increase reversed and the fuel surcharge removed. Our monthly rate for one 96 Gallon Garbage container is \$11.45 per month. If you get a bill for more than that, only pay the \$11.45 per month amount and call ID to have them correct your account.

Thanks!

John Olivet
ARHOA President
